

INTERNATIONAL BATHROOM EXHIBITION 2024

PRESS RELEASE

Arbi Arredobagno presents Decor:

an elegant geometry in its essentiality, enriched by a refined decoration

Arbi Arredobagno, a solid and successful company on the market for over 35 years, has always stood out for its reliability and design expertise, with particular attention to the style and the high quality of its proposals.

From these premises the new Decor furniture collection was born, which further enriches the wide range of Arbi proposals, adapting to every taste and need to organize at his best every bathroom.

The refined design and meticulous attention to the finishes represent the strong point of the Decor program which stands out for the particular door with a thin perimeter frame, romantic and essential, combined with the integrated J handle grip. An aesthetic and functional combination, which gives the entire bathroom furniture a modern and minimalist allure, enriched by a touch of original refinement.

The exclusive detail of the J handle grip, in addition to ensuring a safe and comfortable grip, emphasizes the contemporary aspect of the furnishing proposal, characterized by extremely clean and rigorous lines. In fact, the absence of handles increases the lightness of the volumes and guarantees a complete view of the door fronts, allowing the finishes to stand out at their best.

The great modularity of the program allows you to create multiple configurations, combining refinement and elegance, easily adapting to any bathroom. From a stylistic point of view, a high level of customization is guaranteed by the possibility of choosing between 56 matt lacquer finishes which, in addition to the timeless white, offers multiple shades, from the most classic to the most refined, to create different compositional solutions and combinations.

The Decor programme, thanks to its versatility, fits perfectly into both modern and more traditional environments, adding a touch of class and refinement to any bathroom. Each composition can be combined with the washbasins, worktops, mirrors, spotlights, accessories and complements present in the Arbi price list and with the shower trays, shower boxes, freestanding bathtubs and decorative radiators present in the Ibra Showers program.

Aesthetics, attention to detail and quality are the values that have always guided Arbi in the continuous search for innovative design, giving anyone the opportunity to bring original and totally made in Italy furnishings into their daily lives.
